Education & Training

June 2026

Bachelor of Science in Computer Applications major in IoT Systems
Mindanao State University - Iligan Institute of Technology
Academic Distinction: Cum Laude

Internet of Things (IoT) systems, computer programming, software and application development, embedded systems, computer networking, database management, sensor and device integration, data processing, systems design, technology business management, research and development.

May 2026

Google AI Professional Certificate
Google & Coursera

Artificial intelligence fundamentals, generative AI, machine learning concepts, prompt engineering, AI-assisted productivity, responsible AI, and practical application of AI tools for problem-solving and workplace tasks.

May 2023

Google Project Management Professional Certificate
Google & Coursera

Project management fundamentals, project planning and execution, Agile and Scrum methodologies, stakeholder management, risk management, project documentation, communication, team coordination, budgeting and scheduling, and the use of project management tools and techniques.

July 2021

Humanities and Social Sciences
Iligan City East National High School
Academic Distinction: With Honors

Work Experience

January - May 2026

Engineer Student Intern (AI/ML Algorithms)
Analog Devices Inc.

Developed computer vision and image processing algorithms to transform raw scanned images of electronic circuit plot diagrams into clean, digitized representations. Designed, implemented, and tested an automated image processing workflow for image manipulation, enhancement, and digitization, and evaluated and refined the algorithms based on experimental results.

June - August 2025

Marketing Intern
MAGWAI

Conducted competitor research and analyzed content practices, strategies, and market trends to identify relevant opportunities for MAGWAI. Developed and proposed 8 content ideas for publication over a three-month period, aligning concepts with observed industry trends and the company's marketing objectives.

June - September 2024

Resident Creative
Alex & B. Creative Studio

Produced and edited high-quality photo and video content for 3 local food businesses over a 4-month internship. Developed visual content tailored to each business's branding and promotional needs, while applying photo and video editing techniques to create engaging marketing materials for digital platforms.

Leadership Experience

Present
Hub Leader
KadaKareer

Led and coordinated a KadaKareer hub by engaging members in career development initiatives, facilitating activities and programs, and promoting opportunities for professional growth. Supported communication and collaboration among members while encouraging participation in career-related events, learning activities, and networking opportunities.

Present
AI Master Trainer
SmartCT & ASEAN Foundation

Delivered AI Literacy training and facilitated hands-on learning sessions, guiding participants in understanding and applying artificial intelligence concepts and tools to practical use cases. Developed training materials, conducted demonstrations, and provided technical guidance and feedback to learners.

2023-2026
Founder
TaranTap: Emergency Mobile Application

Founded and developed a student startup focused on improving emergency response and accessibility. Conceptualized and developed an application that enables civilians to contact emergency responders and assists responders in identifying the shortest and most efficient routes to emergency locations. Led the development of the project from ideation to implementation, including identifying the problem, designing the solution, coordinating project activities, and refining the application based on user and operational needs. TaranTap is a mix of two words: Taranta, a word from the mother tongue which means "Panic", and the English word Tap.

2024 - 2025
Director for Innovations
DEVCON Philippines - Iligan Chapter

Promoted technopreneurship, innovation, and technology-driven entrepreneurship within the organization by leading and supporting initiatives that encouraged members to explore technology-based business opportunities and innovative ideas.

Projects

February 2025 - May 2026
Treon

Led the ideation, research, and development of an augmented reality (AR) smart mirror that enables users to virtually try on different lipstick shades in real time. The system uses AR technology to detect and track the user's lips, allowing lipstick colors to be digitally overlaid onto the user's reflection for an interactive and realistic virtual try-on experience.

September 2023 - March 2026
TaranTap

Led the development of a mobile emergency response application that enables users to request immediate assistance through simple emergency buttons. The system identifies the appropriate responder based on the type of emergency, such as police for crimes or firefighters for fires, and connects the user with the nearest available responder. Both users and responders can view each other's real-time location to support faster response coordination and navigation.

October 2024 - April 2025
E-Limango

Led the development and ideation of a data-driven decision support system for mudcrab farmers that monitors key factors affecting aquaculture operations, including water quality,

weather conditions, and mudcrab health. The system processes and analyzes collected data to provide actionable recommendations, helping farmers make informed decisions regarding mudcrab care, management, and farm operations.

January 2024 - October 2024 **ViaBone**

Led the ideation of a sustainable materials project focused on converting food waste, specifically fish and chicken bones, into ceramic materials. The process involved cleaning and preparing the bones, processing them into fine powder, and combining the resulting material with other ceramic components to produce ceramic products, promoting the reuse of food waste as an alternative material source.

August 2024 - September 2024 **AquaAir**

Led the ideation of a modified Atmospheric Water Generator (AWG) designed for commercial farming applications. The system extracts water from air and adapts the technology for agricultural use, providing an alternative water source to support the water requirements of commercial farms.

June 2023 - January 2024 **I-Gaan**

Led the development of a mobile application that helps users discover and compare medical laboratory services within the city. The application provides information on available laboratory tests, operating hours, and real-time service availability, allowing users to find suitable laboratories without needing to visit or contact them manually. Users can also book laboratory tests in advance, helping reduce waiting times and streamline the testing process.

Awards & Activities

December 2025 **Philippine Startup Challenge X**
National Finalist

October 2025 **Regional Pitching Competition - Philippine Startup Challenge X**
Regional Champion

October 2025 **YSEALI Cyberbayanihan Summit 2025**
Iligan City Delegate

April 2025 **DEPDev H.A.B.I Workshop 2025**
National Winner, Food and Agribusiness Category

November 2024 **Huawei Asia Pacific Developer Competition 2024**
Semi-Finalist

October 2024 **Regional Pitching Competition - Philippine Startup Challenge 9**
Regional Finalist

September 2024 **Huawei Seeds For The Future 2024**
Philippine Delegate

August 2024 **DICT Regional Hack4Gov 3**
7th Place

June 2024	**International Labour Organization - Start and Improve Your Business** Department of Trade and Industry, Batch 2024
March 2024	**QOMPETE 2024: National Student Startup Challenge** Qualifier
January 2024	**Kasetsart University BCG Ideation Challenge (Thailand)** Champion, Non-Food Category - University Level
January 2024	**MSU-IIT Young Innovators Startup Apprenticeship Program** Batch 2023
November 2023	**Merit Award for Best Innovative Smart City Startup of the Year** Iligan Business Awards 2023
October 2023	**Regional Pitching Competition - Philippine Startup Challenge 8** Regional Finalist
September 2023	**FuturelliganX: Smart City Hackathon** Champion

Licenses & Certifications

May 2026	**Google AI Professional Certificate** Coursera & Google
May 2026	**AI for App Building** Coursera & Google
May 2026	**AI for Data Analysis** Coursera & Google
May 2026	**AI for Content Creation** Coursera & Google
May 2026	**AI for Writing and Communicating** Coursera & Google
May 2026	**AI for Research and Insights** Coursera & Google
May 2026	**AI for Brainstorming and Planning** Coursera & Google
May 2026	**AI Fundamentals** Coursera & Google
December 2025	**Ignite Philippines Proficiency Certificate** Wadhwani Foundation - Philippines

September 2025	**AI Class ASEAN** ASEAN Foundation
May 2023	**Google Project Management: Professional Certificate** Coursera & Google
May 2023	**Capstone: Applying Project Management in the Real World** Coursera & Google
April 2023	**Agile Project Management** Coursera & Google
March 2023	**Project Planning: Putting It All Together** Coursera & Google
March 2023	**Project Execution: Running the Project** Coursera & Google
January 2023	**Project Initiation: Starting a Successful Project** Coursera & Google
December 2022	**Foundations of Project Management** Coursera & Google

Skills

Internet of Things / Artificial Intelligence / Computer Programming / Startup Development / Project Management / Entrepreneurship / Embedded Systems / Social Media Management / Photography

Programming & Software Development	C / C++ / HTML / Git / SQL / Scikit-Learn / Web Design & Web Development / Matplotlib / Pandas / Data Science / Numpy / Python / Assembly / Scratch
Artificial Intelligence & Machine Learning	Computer Vision / Augmented Reality / Deep Learning / OpenCV / Image Processing, Analysis, and Segmentation
Internet of Things & Embedded Systems	IoT systems / Programming of Microcontrollers / Programming of Microcomputers / Embedded Systems / Arduino / Raspberry Pi / ESP32 / ESP8266 / RockPi / Sensors
Digital Marketing & Content Creation	Digital marketing techniques / Conduct online competitive analysis / Content marketing strategy / Edit photographs / Perform video editing / Adobe Photoshop / Adobe Lightroom / Adobe After Effects / Adobe Premiere Pro
Leadership & Training	Provide technical training / Advise others / Team coordination / Communication / Project planning / Project Execution
